

TECHNIGRAPH

Your Partner in Creative Decorating Solutions

We look forward to being your turn-key partner for craft beer decorated can sourcing...

Technigraph is your turnkey craft beer marketing solution; enabling you to create a very memorable brand image and message. From sourcing bright cans and designing artwork to shrink label application and the delivery of labeled cans to the filling line -

we are your one-stop fulfillment source.

Face it, working with the large can manufacturers can be difficult, costly, and it's complex to source pre-printed cans... not to mention the minimum order quantities required. Let Technigraph be your turn-key supplier for decorated cans. With our help,

you will stand out in the craft beer market with an attention grabbing shrink sleeve label design that offers a 360° graphic, as well as smaller volume flexibility for seasonal brewing launches.

Shrink Sleeve Labeling Offers Great Graphic Options and Flexibility!

Technigraph has the ability to provide a full turnkey supply option - from shrink label design, shrink label sourcing and application - to supplying 12 oz. and/or 16 oz. cans. Technigraph can also provide you with the flexibility you need to support a limited or seasonal launch of just a few pallets or full truck load quantities of decorated cans for standard production filling. Technigraph's new Axon

production sleeving systems, with EZ130 and EZ200 application heads, allow us to execute at application speeds up to 120 containers per minute, providing capacity and flexibility for all your production needs.

To learn more about shrink sleeve label design options or discuss the easy flexibility a Technigraph turn-key supply option will provide your craft beer business - please call or email us today. We look forward to being... **Your Partner in Creative Decorating Solutions.**
